Our Guest Speaker

Mark Brackley joined Jade Solutions (a specialist industrial IT services company to the retail, hospitality, and warehousing sectors) in 1995 as a Junior Project Manager. Rising through various roles, he soon became Sales Director and was instrumental in buying the business in 2000 and leading a further MBO in 2005.

Weathering the financial slump of 2008, Mark, who was then the Managing Director, took Jade on a journey to become one of the largest and most trusted providers in its sector. Mark successfully acquired iconic long-term customers including McDonalds, Pret-a-Manger, Clarks, M&S, Eddie Stobart, GIST, Booker and Home Bargains amongst many others - all trusting Jade with their IT equipment and installation.

In 2017 Mark sold Jade ...then bought it back again in 2019 ... and then sold it again in 2021!

After 27 years, he's finally stepped back from the business to focus on InfiniSki, a new not for profit venture, chairing the local Scout Group and ferrying his entire family to various skiing events around Europe.
