

# M&A IN A POST-COVID WORLD

EXCLUSIVE  
WEBINAR  
INVITATION

**AUGUST 19**

1.00pm to  
2.00pm EDT

The COVID-19 pandemic has impacted every aspect of the business ecosystem. This includes the M&A environment, which has been at a standstill since the lockdown started several months ago. As entrepreneurs and business leaders look for guidance, we have assembled a panel that will discuss how mid-market businesses should think about M&A going forward.

Please join Rooney Nimmo, Net at Work, CLA, Petsky Prunier and Freeman Clarke for an online discussion on the following:

- What management teams can do to prepare for an exit
- Post-COVID market innovation demands
- How do current market dynamics affect achievable valuation?
- Leveraging technology to achieve maximum value
- The challenges of cultural and team integration while socially distancing
- Conducting effective, remote-only due diligence.

## Our panel of experts

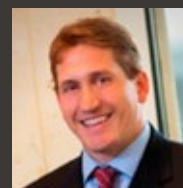

**Craig Teahen**  
Regional Director  
Freeman Clarke
